Personal Profile

I am an ambitious, creative and highly motivated individual who has a passion for the Computer Science industry. I have an uncompromising commitment to quality and outstanding customer service.

I have recently finished my BSc Computer Science studies at the University of Leeds. I have gained a great deal of understanding and practical experience in a variety of modules on my course; modules such as Software Engineering, Distributed Systems, Operating Systems and Discrete Mathematics. This has helped me to further develop my confidence working in a team and problem-solving skills. I can resolve matters by giving clear guidance from beginning to end in an efficient and professional manner.

I am currently looking for a graduate career opportunity. I would like to work with a company that will not only challenge me professionally but will also allow me to develop my knowledge and potential further.

Key skills & competencies

I am a highly articulate and well-motivated individual with great aspirations of success. I am enthusiastic, reliable and a trustworthy individual with an approachable personality. I am friendly and can quickly assimilate to any working environment. I have good interpersonal skills and can work well within a team, also I have confidence in myself to work individually and independently. I am capable of working under pressure to meet deadlines and targets and have confidence in my own resourcefulness and initiative. I have the determination and willingness to progress my learning in order to update myself with the constantly evolving computing world.

Education

2016-Present: ***BSc Computer Science, University of Leeds, Leeds.***

1st year results 2.1, including:

- Procedural Programming 70%

Experience

December/January 2018-2019: **SMID Report, 2 weeks internship, Bennetthorpe, Doncaster.**

- Research and design Virtual Reality applications.
- Create prototype Virtually Reality applications for Oculus Go.
- Experience: experience was gained in creating basic Virtual Reality applications.

2014-2016: **New Bodrum, Doncaster Town, Doncaster.**

- Communication skills: Taking orders from customers over the phone or in person.
- Customer service and problem solving: Addressing any problems concerning the customer and being able to solve them on the spot. Making the customers feel heard and understood. Making sure hygiene is up to a very high standard when dealing with food.
- Speed: As well as ensuring safety and good quality of food, the most important part is preparing the orders quickly and efficiently.
- Energy: Late night into early morning shifts, being motivated whilst being on my feet all the time.
- Friendliness: Ensuring the customer has a very good experience of the takeaway, so they come back again.
- Focus and attention to detail: With the night life of the busy street in the background being able to send out orders correctly without making a mistake that could upset/lose customers.

February/March 2012: **Attenborough cars, Car valeting work experience, Branton, Doncaster.**

- Focus and attention to detail: To fully valet second hand cars to make them presentable for sale. Picking out any scratches with the car and fixing them, cleaning every corner of the car. Also conducting daily inspection on cars, keeping them clean in and presentable for customers in the yard.
- Speed: Ensuring cars are fully valeted to a high standard quickly and efficiently so they are ready for sale.
- Energy: Always being on your feet and knees in awkward positions inside/outside a car making sure every corner of the car is clean.

Awards

- 2016: University of Leeds - Dean of Engineering Excellence Scholarship.

Hobbies and Interests

A couple of years ago, I raised money and took part in Ultra White-Collar Boxing event for Cancer Research UK. I have been a part of my local cricket team for 12 years, captaining numerous junior sides in the process. Also, being part of the first team since I was 15 years old. As part of University I was a part of the Cricket, Boxing and Powerlifting society.

Other interests:

- Current affairs
- Gaming
